## Re: Invitation to Participate in the 27th Philippine Mathematical Olympiad

Dear Sir/Madam,

Greetings of good health this 2024.

The *Mathematical Society of the Philippines* (MSP), in collaboration with the *Department of Science and Technology – Science Education Institute* (DOST-SEI), is pleased to invite schools from your division to participate in the **27<sup>th</sup> Philippine Mathematical Olympiad (PMO)** for the school year 2024-2025.

The PMO, the country's longest-running and most prestigious nationwide mathematics competition for high school students, continues to provide an excellent platform for students to showcase their mathematical abilities. As in the last two years, the competition will be held in a hybrid format, with both online and onsite components, ensuring that every interested student has the opportunity to participate, regardless of their location.

As in previous PMOs, the competition will consist of three stages:

1. **Qualifying Stage:** 23 November 2024 (Saturday)
2. **Area Stage:** 25 January 2025 (Saturday)
3. **National Stage:** 8 March 2025 (Saturday) and 9 March 2025 (Sunday)

This structure allows students to progressively demonstrate their skills and earn recognition at various levels.

Each school can field a **maximum of 30 high school students** (Grades 7 to 12). The registration fee is **Php200** per contestant. Schools can now start the registration process by designating a School Coordinator (SC), who will apply using this [form](#) (PMO27 Form A). Meanwhile, coaches and contestants can begin their training. Contest questions from previous years are available at the [PMO website](#).
