Re: Invitation to 4th Women in STEAM Webinar

Dear Dr. Manuel,

Greetings from the UP National Institute for Science and Mathematics Education Development (UP NISMED)!

To celebrate this year's Women's Month, UP NISMED, in partnership with the Austrian Embassy, is hosting the **4th Women in STEAM on 21 March 2025, from 2:00 PM to 4:00 PM**. This webinar is **FREE** of charge and will be live-streamed on the NISMED Facebook page and YouTube channel.

The theme of the webinar, "*Empowered Women in STEAM: Innovating, Adapting, and Leading with Resilience*," recognizes and celebrates women's invaluable contributions to Science, Technology, Engineering, Arts/Agriculture, and Mathematics (STEAM). It also highlights the important role of resilience and adaptability in driving innovation in these fields.

In line with this, we would like to invite you, your officials, administrators, and educators to participate in this event. Interested participants may register through the following link: <https://forms.gle/UFUjoABh7b3Ayuzk6> on or **before 20 March 2025**. A certificate of attendance will be provided to all registered participants upon completing the evaluation form, which will be provided at the end of the webinar.

Should you have any questions or require further details, please feel free to contact us at nismed.upd@up.edu.ph.

We look forward to your positive response to our invitation. Thank you very much.

Very truly yours,

SHERYL LYN C. MONTEROLA, Ph.D.
 Director

4th Women in STEAM

Austrian
Embassy
Manila

Women in STEAM is an annual event hosted by the **University of the Philippines National Institute for Science and Mathematics Education Development (UP NISMED)** to celebrate and showcase the many contributions of women in Science, Mathematics, Technology, Arts/Agriculture, and Mathematics (STEAM). For the past three years, UP NISMED has partnered and collaborated with various key institutions in organizing the Women in STEAM. These include the Austrian Embassy, International Labor Organization (ILO), Department of Education (DepEd), Department of Information and Communications Technology (DICT), Philippine Commission on Women (PCW), and Center for Integrated STEM Education, Inc. (CISTEM).

As the UP NISMED's key initiative during Women's Month, *Women in STEAM* aligns with the United Nations Sustainable Development Goals (SDGs), particularly Goal 5 (Gender Equality) and Goal 8 (Decent Work and Economic Growth). This initiative seeks to empower women and enhance their participation in education, leadership, and innovation—especially in our country, where gender disparities remain in labor-force participation, wages, and STEAM professions.

Since 2022, Filipina and Austrian women scientists, artists, technologists, innovators, and entrepreneurs have been invited to share their initiatives, insights, and experiences as women of STEAM. The event consistently reflected its mission through the following annual themes:

2022: *Science Diplomacy Workshop: Women in STEAM Careers Webinar Series*

Theme: *Celebrating Women and Girls in Science, Technology, Engineering, Arts and Culture, and Mathematics (STEAM)*

2023: *2023 Women in STEAM Celebration*

Theme: *Breaking the Glass Ceiling: Inclusive Digital Innovations of Women in Science, Technology, Engineering, Arts, and Mathematics*

2024: *3rd Women in STEAM Summit*

Theme: *Transforming Science, Technology, Engineering, Arts/Agriculture, and Mathematics (STEAM) for Lifelong Learning*

Engaging over a thousand educators, instructional leaders, students, and other stakeholders, *Women in STEAM* consistently strives to inspire and empower more women to pursue and excel in these fields.

This year, UP NISMED proudly continues its commitment to advancing STEAM through the fourth installment of Women in STEAM, centered on the theme, *"Empowered Women in STEAM: Innovating, Adapting, and Leading with Resilience"*. This year's event continues the mission of fostering inclusivity, innovation, and leadership among women in STEAM, ensuring that their contributions shape the future of these critical fields.
