Thank you for your response.

The event is set on November 27-28, 2025. This is a 2 days hands on workshop/ seminar on Digital console mixing which aims to teach participants Audio systems set- up, configurations, operations and mixing techniques your team can use for live events in your institution thereby cutting costs of renting suppliers everytime you have programs and events.

The venue is at Charina's Grill Resto/Hall Maharlika Highway, Mabini Santiago City. From 9:00 AM to 5:00 PM of the aforementioned date.

Training modules and gadgets will be provided and certificate will be awarded by the trainer himself. Mr. Mark Yulo of YAVL /sound technologies from Manila is an expert in sound system design, installation, tuning and calibration, Mr. Yulo is a very sought after personality in acoustic treat and soundproofing solutions who caters to various sectors including schools, churches government agencies and events facilities etc.

We hope you can register early to avail of very limited slots to ensure a hands on learning experience from the sound engineering authority .

God bless

 Sir/Madam:

Greetings!

This is to acknowledge receipt of your email.

May we kindly request the complete details of the said event, including the date, venue, participants, and purpose, to guide us in our coordination and preparation?

Thank you.

Subject: Invitation to Participate in the Sound Engineering Technology Training

Dear Dr. Manuel;

Greetings!

We are pleased to extend our formal invitation to your good office to send participants to our Comprehensive and Hands-On Sound Engineering Technology Training.

With over 20 years of combined experience in the field, our team of industry professionals from Charina's Grill in partnership with YAVL Training Services has developed a proven and effective training program designed to equip participants with practical knowledge and technical proficiency in professional sound system operations.

Our training sessions are meticulously structured to ensure that participants gain both theoretical understanding and practical competence in digital mixing, sound system setup, and live event sound management. We take pride in delivering efficient and focused learning experiences that maximize skill development while minimizing time away from regular work functions.

We believe that your participation will greatly contribute to enhancing the technical capabilities of your personnel and strengthening your institution's production and event management standards.

We look forward to your favorable consideration and continued support in sending your representatives to this professional development opportunity.

Should you have any questions or require further details, please do not hesitate to contact us.

Thank you very much, and we look forward to the opportunity of working with you.

2-Day Hands-On Training

Digital Mixing Console Fundamentals Course

Training Overview

This **2-day hands-on course** offers a combination of technical lectures and live demonstrations, allowing participants to gain a clear understanding of audio signal flow, digital mixer functions, and live sound reinforcement applications.

Training Objectives

By the end of this course, participants will be able to:

- Understand the **workflow of audio signals** in live events.
- Identify and properly **connect mixers and speaker systems**.
- Operate a **digital mixer** with proper **gain staging**.
- Integrate and configure **signal processors** such as EQs and compressors.
- **Troubleshoot** common sound system issues.
- Conduct a **full sound check** and simulate **live performance mixing**.

Learning Competencies

Participants will acquire the ability to:

1. Identify components and describe the **signal chain** of an audio system.
2. Connect and patch **mixers and powered speakers** properly.
3. Operate the **digital mixing console** and manage **multiple input sources**.
4. Configure and apply **signal processors** for sound shaping.
5. Troubleshoot and solve **basic sound system problems**.
6. Conduct a **practical system check** for live events.

Training Methodology

- **Hands-on Activities** with real-world equipment
- **Individual Coaching** for guided practice
- **Live Demonstrations** of setup and signal testing
- **Troubleshooting Drills** to build problem-solving skills
- **Practical Simulations** for live sound applications

Proposed Schedule

Day 1 – Fundamentals & Setup

- Introduction to Digital Systems
 - Audio Cables, Connectors, and Signal Flow
 - Mixer Overview and Routing Exercises
 - Group Practice: Basic System Configuration
-

Training Details

Training Fee: ₱9,500.00 per participant

Duration: 2 Days (9:00 AM – 5:00 PM)

Inclusions:

- Digital copy of handouts
 - ID with lace
 - Printed Certificate of Completion
-

Terms and Conditions

1. Reservation and Confirmation

A **down payment of fifty percent (50%)** of the total training fee is required upon **confirmation of the training schedule** and **signing of this proposal**. This ensures the reservation of the training date and allocation of necessary resources.

2. Mode of Payment

The down payment may be remitted through the following account:

GCash Account Name: *Jerome Gnotob*

Account Number: 0956 520 1155

3. Settlement of Balance

The **remaining balance** of the total training fee shall be **settled in cash or via GCash** at least **seven (7) days prior to the start of the training**.

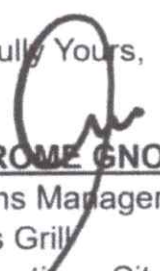

We firmly believe that this training will **significantly enhance the technical capabilities** of your team and contribute to improved **audio management and live event performance**.

Should you require any clarification or wish to confirm your participation, please feel free to contact us. Attached herewith are the detailed **training scope and requirements** for your reference.

We look forward to a productive partnership and to the opportunity of working with you.

Thank you and best regards,

Respectfully Yours,

MR. JEROME GNTOB
