DIR. BENJAMIN D. PARAGAS

Regional Director
Department of Education - Region II (Cagayan Valley)

Subject: Request for Assistance to Disseminate our Information on the Bachelor of Science in Home Economics Program to Public Senior High Schools

Dear Dir. Paragas:

Greetings! I hope this letter finds you well.

The Department of Home Economics Education, UP College of Home Economics, would like to request assistance in sharing information about our **Bachelor of Science in Home Economics** program to **public senior high schools** within your region. As part of our commitment to guiding students toward informed career choices, we aim to introduce to them our program and highlight the academic and professional opportunities it offers. The materials that we hope could be shared with the schools are the following: [DHEEd Prospectus](#) and a link to our website <https://www.dheed.che.upd.edu.ph/>.

Should you require further details, please feel free to contact me at maamonoy1@up.edu.ph or 8981-8500 local 3409. We look forward to your positive response and the opportunity to collaborate in supporting students' career development.

Thank you very much for your time and consideration.

Respectfully,

Asst. Prof. Mary Justine Clarise A. Trinidad, LPT, MHE
Chairperson
Department of Home Economics Education

Endorsed by:

Prof. Shirley V. Guevarra, PhD
Dean
College of Home Economics
University of the Philippines Diliman

DEPARTMENT OF HOME ECONOMICS EDUCATION

The Department of Home Economics Education was first established in 1922, under the College of Education at the University of the Philippines. It then became a part of the College of Home Economics upon the college's establishment in 1961, making it the oldest department in the college.

VISION

DHEEd envisions value-laden and impactful leaders in Home Economics Education.

MISSION

The department is dedicated to utilize home economics, its skills and knowledge to empower families and consumers through quality education, research, and public service.

GOALS

- **Values:** To nurture ethically-driven professionals and scholars in home economics education
- **Education:** To provide innovative instruction through an inspiring and stimulating academic environment
- **Research:** To contribute impactful research in home economics
- **Public Service:** To uplift the quality of life of individuals, families, and communities by equipping them with home economics life skills and values.

HOME ECONOMICS EDUCATION

is a field of study which integrates concepts, skills, principles, and theories of different fundamental skills subjects of home economics, namely food and nutrition, housing and interiors, clothing, crafts, family life and child development, for teaching and life application.

It emphasizes skills in decision-making and household resource management. It takes into serious consideration the interaction between the material and relational aspects of day-to-day living and the use of science and technology for the well-being of people and their environment.

As a sub-discipline of Home Economics, HEEd focuses on four areas of integration:

- home economics education training & research
- household resource management
- entrepreneurship and livelihood development
- consumer studies and education

DEGREE PROGRAMS OFFERED

BACHELOR OF SCIENCE IN HOME ECONOMICS (BSHE)

The BSHE is a four-year degree program which provides a broad foundation in general home economics areas and emphasizes the integration of knowledge to focus on four areas: home economics education and training, consumer studies, household resource management, and entrepreneurship and livelihood development.

It primarily prepares students for a career in education as teachers or trainers from the basic to the tertiary level in different institutional settings. It also provides students with the necessary skills to pursue entrepreneurial ventures with strengths in product development, consumer research, and resource and financial management. It aims to develop graduates who possess fundamental knowledge, values, and skills in the different areas of home economics with the mission of empowering Filipino families and consumers for them to improve their well-being.

MASTER OF HOME ECONOMICS (MHE)

The MHE program was instituted in the 1950's. It is designed to upgrade knowledge and skills of home economics teachers in specialized areas in home economics for preschool, elementary, high school, as well as college teaching. It is also designed to broaden the range of knowledge in different areas of home economics for competent leadership in research, extension, supervision, and administration of academic and non-academic programs.

DOCTOR OF PHILOSOPHY IN HOME ECONOMICS (PHDHE)

The PhDHE program was instituted in 1984 and is designed to prepare leaders in the field of home economics. It provides for increased competency in research, stronger organizational and managerial skills, leadership in supervision and administration of home economics programs, and advanced professional training of home economics education that impacts Asia and other developing countries.
