

BENJAMIN D. PARAGAS, PhD, CESO III
Regional Director
Department of Education – Region II
Regional Government Center, Brgy. Carig Sur
Tuguegarao City, Cagayan 3500

Dear Director Paragas,

Greetings of peace!

At 3ventor Educational Events Organizing Services, we believe that students learn best when lessons come to life through experience. Science, in particular, becomes more meaningful when students are given the opportunity to see, explore, and interact with concepts in a hands-on and engaging way.

With this in mind, we would like to propose bringing an **Interactive Science Exhibit** directly to campus. This program is designed to support school's curriculum while creating an immersive learning experience that strengthens curiosity, participation, and deeper understanding among students.

Our team work closely with schools to deliver a well-structured, safe, and fully coordinated program that is easy to implement within the school setting and aligned with your educational goals.

To ensure a high-quality experience, we provide the following:

- Curriculum-Aligned Content: All exhibits are designed to complement classroom learning.
- Safety & Supervision: Presentations are held within your secured campus or an approved venue.
- Professional Facilitation: Our trained facilitators will closely monitor and assist students throughout the event.
- Certified Safe Materials: We guarantee that all equipment and materials used are safe and age-appropriate.

We, at the 3ventor Education Events Organizing Services, hope that your institution will give us a chance to be part of molding your students. Thank you.

August 26, 2026

To: **ALL SCHOOLS DIVISION SUPERINTENDENTS**

In view of this aforementioned activity, this Office reiterates that the participation of public and private schools is voluntary and shall be subjected to the non-disruption-of-class policy as stipulated in DepEd Order No. 9, s. 2005 entitled Instituting Measures to Increase Engaged Time-on-Task and Ensuring Compliance Therewith.

3ventor Educational Events Organizing Services is an agency of Professional Education Events Coordinator, Organizer, and Exhibitor whose aim is to provide a more effective and enjoyable way of conveying knowledge to every student. The agency is open to the various aspects of education that will effectively and competently guarantee the total quality **LEARNING**.

For this season, **3ventor Educational Events Organizing Services** will be bringing in the area the **FIRST INTERACTIVE SCIENCE MOBILE MUSEUM** with a theme "**YES, Youth Engage to Science**", a Traveling exhibit launched in July 2006 that is designed to reach out to every student in every corner of the Philippines, delivering an exciting science exhibit to students and teachers.

3ventor Educational Events Organizing Services have reached thousands of Elementary, Junior High School, Senior High School, and College students and have toured throughout the country, including isolated areas. With the mission of bringing fun Science to the classroom, the exhibits will be able to create a learning environment where science concepts are discovered in an entertaining way, and imagination will capture the hearts of the young minds.

In line with this, we are writing to formally invite your students and teachers to visit our Science Mobile Museum, where they can discover and rediscover **The World of Science**. We can also bring the Mobile Museum to your respective school. We would like to ask your permission to post our promotional materials on your bulletin board or activity board.

Vision & Mission

Vision

We want every student to be excited about learning science and to see that learning is fun. We hope they grow up to be curious thinkers who discover new things and build a better future.

Mission

We bring amazing, hands-on science exhibits right to your school. Our goal is to make science easy to understand, super fun, and connected to what students learn in class. With "EXEL, Experience and Expand Learning," we want to spark new ideas, help students think critically, and give them a great learning experience every time.

What Makes It Unique and Special?

- **Mobile & Accessible:** Unlike traditional museums, we bring the exhibit to you, reaching students in every corner of the Philippines, including isolated areas. This ensures that no one is deprived of learning.
- **Hands-On & Interactive:** We transform abstract scientific concepts (like forces, perception, light, electricity, magnetism, and mathematics) into tangible, engaging experiences. Students don't just observe; they discover, experiment, and truly experience science.
- **Fun-Filled Learning:** Our approach is designed to make learning enjoyable, proving that science can be exciting and sparking imagination in young minds.

Target Groups/Grade Levels

The Y.E.S Interactive Science Exhibit is thoughtfully designed to cater to a wide range of learners, from Kindergarten to Senior High School students. Our professional exhibit facilitators will ensure that the interactive stations are accessible and engaging for all age groups, allowing every student to connect with science at their own level.

Admission Fee

- **Published Rate:** PHP 200.00
- **TEACHERS ARE FREE OF CHARGE**

Venue & Space

- **Location:** School campus (gym, multi-purpose hall, or large classroom).
- **Space:** Open space for interactive stations and student movement.

Operational Flow & Schedule

- **Daily Batches:** We run four batches per day – two before lunch and two after lunch.
- **Batch Duration:** Each batch has two hours to explore the exhibit.
- **Ticketing:** Tickets will be four different colors to easily identify which batch students belong to and prevent mixing.

The Y.E.S Interactive Science Exhibit creates experiences and opportunities for students to enjoy Science with more than thirty (30) gadgets to choose from. We prepare highly visual, colorful, and well-crafted gadgets for the exhibit. It employs graphics, computer software, and the latest technology to present a scientific phenomenon in the best way possible.

The Y.E.S Interactive Science Exhibit
The "Scie-xhibit"

FORCES	PERCEPTIONS	LIGHTS
Cloud Ring Gyroscope Center of the Gravity Bernoulli Blower Newton's Law Ball Canon Vortex racer Tornado	Shadow Image Head on a Plate Animation Strobe Face Illusion Spin Circles Double Eye- Double Lips	Ultraviolet Light Anti-Gravity Mirror Face Kaleidoscope Light Mixer Colored Shadow Phosphorescent Wall Vanisher Box Fiber Optics
ELECTRICITY AND MAGNETISM	MATHEMATICS	
Circuit Racer Magnetic Sculpture Sound Wave Body Conductor Hand Battery Finger Tinger Magnetic Levitation Plasma Sphere	Soma Cube Water Spiner Pythagorean Theorem	

The exhibit is appropriate for any level, from Preparatory, Elementary, Junior High School, Senior High School, and College Students. Suitable also for teachers, especially in K-12 discussions of the Science and Technology.

Make a Difference... "YOUTH ENGAGE TO SCIENCE".
