DIVISION OF NUEVA VIZCAYA

ORLANDO E. MANUEL
Schools Division Superintendent
DepEd Region 2 - Schools Division Office of Nueva Vizcaya

Dear Superintendent Manuel,

Greetings from the Science Clubbing Movement!

For over 55 years, the **Pambansang Kapisanan ng mga Kabataan Samahan na Agham (PSYSC), Inc.**, the first and largest umbrella organization for science clubs in the Philippines, has been continuously working in delivering quality programs and activities to elementary and high school science enthusiasts across the nation to promote the core thrust of the organization, the public understanding of science, technology, and environment (PUSTE).

This year, the PSYSC will host the **National Youth Science, Technology, and Environment Summer Camp (NYSTESC)** with the theme, **XENORYX: Reawakening the Roots of Tomorrow's Ecosystem**. The event will take place on **December 6 to 9, 2026 at La Virginia Leisure Park and Amusement Resort in Batangas.** This event is an annual four-day event consisting of a lecture series by distinguished experts on a selected field in Science and Technology, interactive workshops for hands-on learning, exposure trips, and other fun-filled activities. The event is open to **Junior High School and Senior High School Students, teachers, science club advisers, and coaches nationwide**.

NYSTESC is an event designed to give participants a thorough understanding of a selected field of science. The event features a series of lectures from distinguished experts, interactive workshops tailored to various learning styles, and opportunities for field-based learning. Through these activities, the event aims to promote the participants' interest in the chosen scientific field, inspiring them to explore career paths and opportunities in its multidisciplinary areas. Furthermore, the event fosters passion for STEM and encourages camaraderie among science clubbers from diverse cultures, helping to cultivate leadership skills and teamwork. This year, the focus is on **ENVIRONMENTAL ENGINEERING** — empowering future innovators to address critical environmental challenges through a series of expert-led lectures and hands-on activities that turn engineering ideas into sustainable solutions.

To help us reach more schools within your division to help us reach more schools within your district, we would greatly appreciate an endorsement of the event from your office, which we may include in our communications with the schools we will be contacting. We have already secured a National Advisory from the DepEd Central Office as support for this initiative. Kindly find the document attached for your reference.

MEMORANDUM Date: 05-NOV-26 Released (Records): Leslie
To: (✓) PSDS/DICs (✓) Elem/Sec School Heads
