November 13, 2026
Subject: Invitation to the WorldSkills Skills Competition Orientation and Technical Readiness Program

Dear Esteemed Education and Industry Partner,

Warm greetings from CyberTech Institute Inc. and Hytec Power Inc.!

In pursuit of academic excellence, industry-driven skills development, and global competitiveness, CyberTech Institute Inc., in partnership with Hytec Power Inc., cordially invites your institution to participate in the WorldSkills Skills Competition Orientation and Technical Readiness Program.

This initiative is designed to strengthen institutional capabilities, enhance faculty and student competencies, and prepare aspiring competitors for national and international skills excellence. Covering selected skill areas under the WorldSkills National, Junior Skills, and Elementary Skills Competition categories, the program provides valuable exposure to competition standards, emerging technologies, technical demonstrations, equipment familiarization, and practical skills applications.

Through online orientations and face-to-face hands-on training, participating institutions can gain industry-relevant knowledge, enhance instructional practices, and develop their readiness for future skills competitions. Training schedules, selected skill areas, fees (if applicable), and logistical arrangements will be coordinated based on institutional needs and available resources.

For institutions seeking official competition participation, a Letter of Intent (LOI), approval from the concerned TESDA Regional Director (RD), and execution of the required Memorandum of Agreement (MOA) with TESDA shall be necessary, subject to applicable regulations. Participation in this training does not guarantee qualification for official competitions.

We encourage your institution to take this opportunity to empower educators, develop future-ready learners, and strengthen industry–academe partnerships toward technical excellence and international competitiveness.
